

## **DEFERMENT LIST**

Listed below is information about placing your name on the Missouri deferment list, as outlined in the Missouri Commercial Feed Law. This provision was enacted in 1998. If you need additional information or have any questions, please contact Tony Claxton, Missouri Department of Agriculture, at 573-751-4310 or email [Tony.Claxton@mda.mo.gov](mailto:Tony.Claxton@mda.mo.gov)

**DEFINITION:**      **DEFERMENT**, as reported in section 266.190, means that the responsibility for payment of the 10 cents per ton inspection fees for any feedstuff (single ingredient, final product and/or commercial feed that is manufactured, guaranteed or distributed into or within the state of Missouri) may be transferred to a second responsible party if that responsible party has requested and been accepted to be placed on the deferment list. By requesting such an action, the applicant agrees to pay all inspection fees that are due to the state of Missouri.

**Conditions under which the inspection fee could be deferred and the applicant be placed on the deferment list:**

- 1) The applicant for a “deferment” status must have a current Commercial Feed License with a status of Feed Manufacturer, Feed Distributor, or Feed Guarantor of commercial feed.
- 2) The applicant must make a written request to the Missouri Department of Agriculture to be placed on the “deferment list.”
- 3) The deferment may be extended to ingredients used to manufacture feed for the purpose of feeding the applicant’s own personal livestock, but all applicable inspection fees are still due to the Missouri Department of Agriculture.
- 4) “Deferment” status will only be granted to the applicant’s primary location and any other shipping points as listed on the “deferment list application.”
